

Lucy in the Sky with Diamonds -- Ostinato

Arrangement: The four measures above get played four times, then the singing begins. This continues until bridge ("Cellophane flowers...")

The bass and chromatic section below is played three times and enters after the first four measures of the above section, when it becomes chords,,,

Hold each chord for three beats. Accent the black note once on the first of each three beats. Either strum or pick on beats two and three of each measure (still holding, of course, the chord for that measure.)
